Sectionalism.

As we had occasion to say yesterday, we have repeatedly expressed the hope that the grand organization of "Farmers' Alliances" might be the instrument destined by Providence to cause the dissolution of

followed from the facts we have stated. We believe that we might say that from the Courthouse until now there has rarely been a time when the Democratic party did not number among its adherents more of the white voters of our Union than the Republican party could number. Even in 1865, if (there were no negro voters then) all the southern States had been permitted to be represented, as under the Constitution they were entitled to be represented in the national House of Representatives, their representatives, added to the Demo crats from the northern States would have constituted a majority in that body. But the Clerk of the House of Representatives made up his roll to suit THAD, STEVENS and his malignant supporters, and as soon as Congress assembled the two houses pro-ceeded to pave the way to the long supremacy which the sectional Republican ever since that time enjoyed. They did their work so well that the Demo-

We shall not base too many hopes upon that action, for the farmers who spoke at Ocala may be ahead of their brethren generally in the northern We do not know how this is, but we indulge the belief that the northern people have settled down into the conviction that the white people of the South ought to be allowed to solve the negro oblem in their own way. As we have mid heretofore, the northern people manifested such a kindly spirit towards the people of Mississippi when these latter were trying to make a constitution to defend themselves from negro domination that we could not but hope that sectionalism was

On Wednesday last Mr. TUBPIE, of In diana, in a speech opposing the passage of the force bill stated facts which show that the northern people are in no way differ-ent from the southern people when it comes to electing proper persons to fill the State and Federal offices and govern the country. In neither section are the negroes allowed the supremacy. There are exceptions to this rule in the South, but none in the North, where hundreds of thousands of negroes are treated with supreme contempt.

All these facts being as we have just stated them, we cannot but continue to cherish the hope that, what with the sound eachings of the farmers and an improved state of feeling among our northern brethren, the death of sectionalism is at hand. Said we not truly on yesterday that the very nature of the Republican party prevents it from adopting the creed of the Farmers' National Alliance? Can that party denounce the force bill? We need not

The Street Fund.

It would be a source of grief to many hopeful and enterprising citizens to hear that it would be impossible to make a large special appropriation for streets next year. The debate in the Common Council Monday led to this conclusion, when it was said that after the floating debt of \$250,000 was funded our bonded limit would be but \$200,000. These figures were based on the present assessment, but taxables were largely increased by the assessment made a few months ago, and the following will be about correct for next year's exhibit: under charter limit February 1,

It is conceded on all hands now that the envoys made a blunder in issuing their manifesto against PARNELL.

The greater pity is that PARNELL did not voluntarily retire. It would have been better for his party to have accepted a less able leadership than to have been split into two factions, as we now see it.

So far as hotels are concerned the travelling public will see that the law is enforced. When a man once gets used to stopping in hotels where fire-escapes are provided; when he becomes accustomed to examining the location of the fire-escapes just before retiring, he will not patronize a hotel the owners of which do not comply with the State law and make ample provision for the safety of its guests. We say for Richmond that as to hotels, theatres, factories, workshops, schools, the Republican party-a party which hospitals, &c., the law will be rigidly enought to have died long ago, there being forced. Half-dressed forms of men shouting for help were seen at all the windows, but a sight that filled spectators with herror was a woman and two babies at a third-story window. The top floor was occupied by sixteen persons—Mr. and Mrs. Irwin and founteen men employed by the Hotel Anderson. At the first alarm Irwin ran downthrough the halls, which were already filled with smoke, to alarm the occupants of the resolution denouncing the force bill and deprecating its passage. The adoption of such a preamble and resolution by such a body of men is a good sign. Having for some time been looking to the farmers as possessing an organization which might be able to crush out sectionalism before the next presidential election, we were not surprised by the action of the Ocala Convention. We shall not base to many hopes upon that action, for the stream was a woman and two bades.

It was only a few days ago that the announcement was made that both of Virginia's senators—Mr. Barbour and Mr. Daniel—were favorable to the nomination of Governor Hill, of New York, as the Democratic candidate in the next election for President.

for President.

With startling rapidity, and directly behind the publication of the positions occupied by Virginia's two senators, comes in a bold, enthusiastic and eloquent way from Hon. Charles T. O'Ferrall the assertion Hon, Charles T. O'Ferralt the assertion that he is for Cleveland's nomination again. Here are three leaders in the Democratic party of Virginia, three men against whom no three other Virginia Democrats could successfully be pitted, who have already declared themselves. All are great leaders, not only in their State but in Congress. Their influence for either Cleveland or Hill, if exerted, would be tremendens.

So it will be seen that the City Council can not only fund the floating debt and save 2 per cent, interest, but can provide for the completion of the City Hall building and issue \$200,000 for special street improvements and still have a good margin for unforeseen contingencies.

Although most of our bonded debt is represented by assets, which the Census Bureau estimates at \$4,500,000, the Legislature has very wisely provided in our charter that the issue of bonds shall at no time exceed 18 per cent. of the value of real estate assessable for taxation.

This not only puts a check upon extravagance in the Council, but affords the bond-halders a guarant that the issue of the council state was then too far in advance of his party and the country, who, however, showed at the recent election that they had been educated up to his ideas.
